CAPAC Welcomes Minister Anand's Statement on the Humanitarian Catastrophe in Gaza

For Immediate Release

November 12, 2026

The Honourable Anita Anand
Minister of Foreign Affairs

CAPAC welcomes Minister Anand's necessary statement on the ongoing humanitarian catastrophe in Gaza, worsened by the rains and flooding, and her call on Israel to open all crossings so food, shelter, warm clothing and heating can reach families without further delay. CAPAC also commends her for joining the Call to Action of Tom Fletcher, UN Relief Chief, on the same urgent need.

CAPAC once again calls on the Government of Canada to condemn Israel and to act with concrete measures, including sanctions, to end the obstruction of life-saving aid to the Palestinian people, to uphold international law, to protect the civilian population in Occupied Palestine, including by bringing a halt to the killing of civilians by the Israeli army and terrorist settlers, and to act now with international partners to bring an end to this illegal and violent occupation.

Lama Aggad
President
Canadian Arab Public Affairs Committee (CAPAC)
